

## URGE WOMEN'S EXHIBITS

**PREPARED FOR STATE FAIR**  
PHOENIX, Sept. 8.—With the 1919 premium lists now ready for distribution, Mrs. W. W. McNeill, superintendent of the Women's department of the Arizona state fair, urges all women who expect to make exhibits to prepare their entries at once if they have not already done so.

With assurances from the fair commission that the coming season to be held at the state fair grounds, Phoenix, November 3-8 inclusive, is going to be bigger and better than ever before, there will be many additional thousands in attendance this year. General interest will be still further enhanced if Arizona women avail themselves now of the opportunity of entering one or more of the numerous and varied competitions arranged for their benefit.

Premiums, cash and merchandise, to the value of \$20,000 will be distributed as premiums this year, and in the Women's department, especially, the array of prizes and the variety of competitions expected to prove appealing to old and young alike.

There will be special classes open to competition to girls under 14 years of age, and there will be other classes for women over 60. There will be classes also open to entries in plain sewing; some knitting and darning and still others to various forms of fine needle work.

But needle workers cannot claim all the prize money for a good portion has been set aside for the makers of homemade bread, cakes and pies, of home canned fruits, jellies, pickles and preserves.

For those who delight in the cultivation of flowers there will also be a special department and many are the prizes which have been hung up for the finest specimens of roses, chrysanthemums and other blooms, potted plants and ferns.

With the opening of the fair set for November 3, it is especially urged by the superintendent of the Women's department that all women and girls of Arizona who can possibly do so, should arrange to make entries. It is further urged that the work of preparing entries should be started at once.

As the first step in this direction one of the new premium lists should be obtained and thoroughly studied. These are ready for free distribution and may be obtained from Shirley Christy, secretary of the fair commission, Phoenix, or from Mrs. W. G. Miller, of Douglas, special representative of the state fair for Cochise county, or from any of the following which have agreed to assist in the distribution: Tombstone Commercial club, Warren District Commercial club, Douglas chamber of commerce, Wilcox chamber of commerce.

## GEN. OBREGON SOON

**TO OPEN CAMPAIGN**  
NOGALES, Ariz., Sept. 8.—General Alvaro Obregon, candidate for the presidency of Mexico, who has been at Hermosillo conferring with constituents regarding his campaign, returned to his home in Nogales, Sonora, today and announced that within the next three weeks, he would begin an active campaign throughout the republic.

It is the intention of General Obregon to establish headquarters in Mexico City. He will not go through the United States from here and enter Mexico at Laredo as was first planned, but will go south to Mazatlan over the line of the Southern Pacific De Mexico, taking the steamer to Mazatlan, where he will be met by a number of prominent residents of Mexico City and escorted to the capital.

## MARRIED FEMALE, EVEN WHEN UNDER AGE MUST BE TRIED AND PUNISHED AS AN ADULT

PHOENIX, Sept. 8.—The attorney general's office has ruled that "a married female infant" cannot be committed to or confined in the state industrial school for juvenile offenders. The reason given is that the legal marriage of a juvenile "emancipates them from the legal limitations imposed by their lack of age, and since the state, in taking charge of delinquent juveniles, acts in "loco parentis" and since this is not legally possible when a girl under 18 is married, she therefore must be tried in the same courts as though of age.

## MAY YET BUILD

**STATE ARMORIES**  
PHOENIX, Sept. 8.—Attorney General Wiley E. Jones is about to make a ruling that may have far reaching effects on the future wording of appropriation measures.

Jones has received the same inquiry from three persons, Adjutant General Ingalls, former Adjutant General Harris, who still is contesting the place, and from George Harben of Flagstaff, a former assistant to the attorney general.

All three are interested in whether the moneys appropriated in sections 45 and 46 of chapter 90 of the laws of 1917, for the purposes of building state armories at various points for the use of the militia, and of building a state arsenal, are still available for this purpose.

Jones will send a copy of his opinion, when he gets it written, to each inquirer.

The attorney general stated yesterday, that although he had not as yet written the opinion, that his present impression is that the funds mentioned are still available.

He bases this "impression" or opinion, thus verbally expressed, on the language of the laws. In some laws the appropriation clause states that the money appropriated for a certain purpose must be expended within certain dates. In this case, the attorney general thinks, if the money is not spent in the specific time, it reverts to the general fund.

If, however, the money is appropriated "to become available during a stated year," the attorney general is under the impression that it remains available for that purpose until used.

This ruling, if confirmed by a written opinion, makes it still possible to build the armories and the arsenal, and though no search of the records has been made to determine if there are other appropriations worded like this in the past history of the state, that were not used as they are still available if any such exist.

## AMERICAN MINE

**ENGINEERS TO MEET**  
CHICAGO, Ill., Sept. 9.—Mine owners and mining engineers from every section of the country will present opinions to government representatives on the taxation of mines of the American Institute of Mining and Metallurgical Engineers which will be in session here during the week of September 22.

Mine taxation at present ranks with the subjects of most pressing importance to the mining world. At their meeting the mining engineers and government officials will discuss methods of determining mine valuation with a view to establishing tax laws for the mines which will take into account the wasting assets of the mining industry.

The meeting is being held at the request of the Commissioner of Internal Revenue who will be represented by Dr. L. C. Graton of the Valuation Section of the Bureau.

In addition to this matter, the mining engineers will hold important discussions on coal supply and on pyrometry in which several new methods for the measurement of high temperatures will be presented for the first time.

This meeting of the American Institute which is its 129th will include trips of inspection to the Gary Steel Plant, the La Salle District, the coal fields of Franklin and Macoupin counties, the industrial activities of North Chicago and Milwaukee, the refineries of East Chicago and Whiting and nearly every kind of metallurgical and manufacturing industry in Chicago.

The officers of the American Institute of Mining and Metallurgical Engineers are as follows: Horace V. Winchell, president; Albert R. LeDoux, first vice-president; George D. Barran, treasurer; Bradley Stoughton, secretary.

## GROCERY "TILL" ROBBED

**OF \$500 AT TUCSON**  
TUCSON, Sept. 11.—The till of Wenceslao E. Felix, grocery at Sixth avenue and Tenth street, was robbed of \$500 about 10 o'clock last night. He reported, he opened his place to allow a woman to use the telephone. After her departure he declared he found the money missing from his cash register. The police are looking for the woman.

## MEXICAN MOBBED FOR

**SLIGHT TO U. S. FLAG**  
PRESCOTT, Sept. 8.—When a Mexican employee of the S. F. & P. in this city refused to stand and uncover as the band played the national air on Sunday afternoon on the plaza, a tragedy was only averted by Judge Chas. H. McLane appearing on the scene and rescuing this supposedly disloyal resident from the hands of a large number of loyal men.

The trouble started when many hundred people obeyed the custom of the day by respectfully paying this tribute to the flag, when it was seen there was only one Mexican who faltered. He was remonstrated with in a courteous manner by a workman. Refusing to heed the warning and vehemently protesting against expressing such respect, the two men became involved in a fist fight, and in a few seconds a score of Americans were in the melee. The Mexican was thrown to the ground and while being roughly handled Judge McLane appeared and the Mexican was saved from serious injuries.

An eye witness said there was no doubt that those engaged were furiously inclined to show their hatred, and when it became known what prompted this patriotic demonstration there were scores of men only too eager to resent the disloyalty of the man's actions.

The Mexican was rushed into the county jail where he was held and will be tried. He speaks English fluently, knew what was wanted when asked, but emphatically refused to accede to the patriotic request of loyal citizens.

## NED HILYARD IS INJURED

**BY STROKE OF LIGHTNING**

BENSON, Sept. 8.—While engaged on the roundup last Saturday evening, near the Gibson ranch, about three miles from town, Ned Hilyard, a colored employee of the Eitz cattle interests, was struck by lightning and badly injured. The horse he was riding was killed by the stroke. The bolt seems to have come straight down, striking Hilyard on the back of the head and running down his back causing severe injury. He was rendered unconscious, and it was at first thought he had been killed. He was picked up by the men of the roundup party and was brought to town by auto and taken to the residence of Mr. H. W. Eitz, where he has since been receiving the best of care and attention. Yesterday he was so far recovered as to be up and walking about the yard.

The roundup, working its way up the river, was making headquarters at the ranch of Mr. Jas. Roberts and the Gibson Ranch of the Boquilling Company adjoining. It was growing late and all the riders were hurrying to finish their work before the approaching darkness and rain came on when the happening occurred.

Hilyard, a man of middle age, has lived in the country a long time and has worked for the Eitz outfit for a number of years. He has a place of his own down the river and is also owner of a considerable herd.

## AFTER SAFE CRACKERS

Sheriff James McDonald is having issued from the Sheriff's office today description of the currency and gold taken from the safe of the True Meat Market in Bisbee Saturday night, when yeggs cracked the safe, making away with \$2500 in currency, and gold in various denominations. The currency which was in Federal Reserve Notes in \$20 denominations bears the serial numbers L-5161800 and L-5161809. It is presumed the currency is blood stained as the robbers evidently cut a vein breaking into the safe, leaving a trail of blood behind them. The circulars have been sent to all parts of Arizona, New Mexico, Texas and California, as well as to Mexico, asking peace officers, stores, merchants and bankers to be on the lookout for the robbers. Sheriff McDonald is in Bisbee working on the case but up to this afternoon no clue had been obtained.

A quantity of jewelry was also taken from the safe, the description of which is in the hands of the officers and it is expected that the guilty parties will be located if they attempt to dispose of it.

## ANOTHER PIONEER CALLED

**TO BEYOND**  
News of the passing of another Tombstone pioneer to the beyond last week is received in a clipping from a Los Angeles paper, which chronicles the death of John H. Cummins, who will be remembered by many of the old timers still in Tombstone. The clipping reads:

"Another one of the few remaining early settlers of California passed away in the person of John H. Cummins, who died at his home, 1633 Baxter street, this city, on Tuesday, born in Zanesville, O., January 21, 1843. In the spring of 1857 he came to California settling in Calaveras county. Later in the same year he went back to Council Bluffs, Iowa, whence he with his father and brother drove a band of cattle into Stockton, this state, the journey taking six months and eighteen days. His father made eight trips across the plains bringing emigrants here in a 'prairie schooner' and he took freight with ox teams from Sacramento to Virginia City, Nev., in 1863 and 1864.

"A carpenter and bridgebuilder, he helped to construct many of the Central Pacific Railway's spans in the Sierra Nevadas from Truckee to San Francisco, and for the same railway built the first trestle on the coast at Oakland. He went to Tombstone, Ariz., in 1880 and spent nine years on the frontier there. After building the greater part of Fort Huachuca, Ariz., he came in 1889 to Los Angeles, where he had since built many fine homes.

"Mr. Cummins was married in 1864 to Margaret Elizabeth Parry, who died in 1891 to Emma E. Hunt, the latter surviving him. He also leaves eight children, one of his sons being Dr. Thomas J. Cummins, superintendent of the Arizona state hospital at Phoenix."

## WORK OF LEGION

Commander O. G. Bell of Fourth Post, American Legion has received the following statement concerning the work the Legion wishes to do to assist members and relatives of ex-service men with their insurance, liberty bonds, back pay, etc.:

The American Legion's only excuse for existence is the good which can be done the ex-service men, the relatives of deceased soldiers, sailors and marines, and the community in general. With a strong organization perfected with unselfishness as the predominant spirit, its possibilities for beneficial work are unlimited. Aside from the many lines of work anticipated in the future, the organization desires at this time to issue an invitation to all former service men and to all relatives of deceased service men, requesting that if they are in need of assistance on the subject of War Risk Insurance, back pay of deceased soldiers, liberty bonds undelivered, compensation for wounded soldiers, or any other similar subject, they immediately call upon the local post, which will in turn refer the matter to the proper official for attention.

## JOSE MARIA G. SOTO,

**IMURIS LAND BARON**

**KILLED AT RANCH HOME**  
NOGALES, Sept. 8.—One of the most brutal crimes committed in Sonora in recent years, occurred at Imuris last night, when Jose Maria G. Soto, a prominent farmer, and a man named Cota, were foully murdered by unknown assassins who severed the heads of their victims from their bodies.

From the meagre details that could be obtained regarding the tragedy the murder was committed at the home of Jose Maria Soto on his ranch near Imuris.

The murdered rancher was known throughout Sonora and numbered many acquaintances in Nogales, Arizona where he was a frequent visitor.

Only a few days ago, the murdered rancher returned to his home from Nogales, Arizona, where he has been with his son Eduardo who is confined to St. Joseph hospital suffering from a gunshot wound accidentally inflicted by a hunting companion.

J. M. Soto, a son who is at Imuris telegraphed the Herald this morning offering a reward of \$2,000 for the apprehension of the assassins of his father.

## MORTALITY OF ARIZONA

**BABES GROWING APACE**  
PHOENIX, Sept. 8.—The young mothers of Arizona will greet with profound concern the announcement contained in a recent bulletin of the Arizona board of health to the effect that 1,281 babies in the state died during the year 1918 before they had passed their first birthday.

An approximation of this truth was contained in an article appearing in an afternoon paper August 22 which contained in an article appearing in the bulletin that 557 babies under the age of two died during the year 1918, that under the age of one year, and that 1,281 babies under the age of one year died in 1918.

Of these 1,281 babies 424 died of diarrheal diseases, 90 per cent of whom could have been cured had their mothers been trained in motherhood. These deaths, according to the statement of an authority on children's diseases and baby feeding, are directly traceable in most cases to ignorance.

Too many mothers, this physician declares, believe that motherhood brings an instinctive knowledge of how to feed and take care of a baby. These fall an easy prey to the highly advertised baby foods which come in packages with the prescription the same for all babies of the same age, irrespective of individual needs.

Another evil in the feeding of young babies is found in the failure of mothers to use cow's milk to modify it properly. The only food other than mother's milk which should be fed to a young baby is cow's milk, properly modified by the addition of sugar and the reduction of fats and protein to resemble the individual mother's milk as closely as possible.

Contrary to popular superstition this milk should be boiled. Boiled milk is safe, and there is no foundation for the belief that rickets and scurvy follow the use of the milk which has been boiled. The milk must be boiled carefully, however, and withdrawn from the fire immediately after the boiling point has been reached.

Another cause contributing in many cases to infant mortality is the unwillingness of some physicians and nurses to occupy themselves with the instruction of young mothers.

Most women will follow eagerly the advice of a physician or trained nurse. If this advice is carefully given, the mother soon learns to nourish her children properly. If not, the child suffers in consequence.

All these things contribute to the infant mortality which is being combated so earnestly by the Arizona board of health, and it is hoped that by a careful campaign of education many of these evils may be eradicated.

## ACHIEVEMENT DAY FETE

**BY GIRLS OF ST. DAVID**

**PROVES GREAT SUCCESS**  
ST. DAVID, Ariz., Sept. 11.—Friday September 8th was achievement day for the Girls' Sewing and Canning club of St. David, carried on through the extension department of the University of Arizona, and under the direction of Mrs. L. E. Matteson.

The program for the day begun at 10 a. m. Those appointed to judge the sewing and canning exhibits were Miss Agnes Hunt, assistant state leader of boys' and girls' clubs, Mrs. Rheda Proffitt of Benson, and Miss Louise Sperleider, home demonstration agent.

As soon as the judges arrived at the school house where the exhibits were they began inspecting the sewing. This exhibit was divided into two sections, that done by girls under ten years of age and that done by girls over ten years of age.

## MAYOR OF DOUGLAS

**WANTS TO RESIGN**

DOUGLAS, Sept. 10.—William H. Fisher, mayor pro tempore and alderman from the Fourth ward in the city council, resigned his office last night by letter, ending a term of seven years. He requested that his successor be appointed and allowed to qualify at once. However, the council did not comply with his request holding acceptance of the resignation in abeyance until Mr. Fisher could be seen personally and an effort made to have him remain a member of the council. Mr. Fisher stated that private business interests demanded the time he had been forced to give to the city.

## ARIZONA RIFLE TEAM

**IS MOST UNIQUE ON RANGE IN NEW JERSEY**

The Prospector is in receipt of the following clipping, from the New York world, about the shooting of the Arizona rifle team on the Caldwell, N. J., range, in which the Arizona bunch captured 16th place out of 72 competing teams. The article reads:

"Probably one of the most unique teams that have arrived at the navy rifle range at Caldwell, N. J., where the national matches are now being held is the civilian team representing the state of Arizona, which has as one of its members Sheriff Harry Wheeler of Cochise county, the man who directed the apprehending and deportation of 1,200 I. W. W.'s from Bisbee, Arizona, not so long ago. Sheriff Wheeler is a noted shot in the southwest, and has refined his office for years by virtue of a quick draw, and by his ability with the gun.

Another character of note on the team is seventy-four years old, George J. Roskrige, a pioneer of the rifle game in the southwest, and a champion shot. He is the father of Masonry in Arizona. His connection with the order began June 10, 1870, when he was made a Master Mason in True and Faithful Lodge No. 118 at Helston, Cornwall, England. Mr. Roskrige acquired his title as the Father of Masonry in Arizona from the fact that when on March 13, 1882, the Grand Lodge of Arizona was founded he was elected grand secretary, and has served continuously as such to the present time. He was honored with the thirty-third degree in Masonry in Jan. 24, 1894.

"The 'Cactus' state team of seventeen is captained by J. P. Sexton, vice-president of the Arizona State Rifle Association, who has headed the Arizona team at Camp Perry at the championship in 1918.

## PHOENIX COMPANY

**TO MAKE BROOMS**

PHOENIX, Sept. 6.—Brooms, Phoenix made, Arizona brooms, are very soon to be a reality, according to the announcement yesterday of officials of the Arizona Broom Manufacturing company, whose new plant is being installed at 217 West Cherman street.

Machinery is now arriving, after much delay occasioned by the recent railroad situation. Winders, stitchers and cutters are here and are being installed, a carload of broom corn and another of handles have arrived, and as soon as the supply of twine and wire arrives the process of manufacture will begin.

The output at first, while the new plant and personnel are being broken in, will be limited to about 25 dozen brooms per day, though the production is expected to soon reach the capacity of the machinery now on hand, or 50 dozen per day. Later, additional facilities will be installed for the manufacture of brushes, dusters and other by products.

## NOTICE FOR PUBLICATION

Department of the Interior  
U. S. Land Office at Phoenix, Arizona, August 22, 1919.

Notice is hereby given that Walter L. Douglas, of Turner, Arizona, who, on December 15, 1914, made Homestead entry No. 026229 for lots 1 and 2, section 19, Township 29-S, range 26-E, G. & S. R. B. & Meridian, has filed notice of intention to make three year proof to establish claim to the land above described, before W. A. Fowler, U. S. Commissioner, at Tombstone, Arizona, on the 2d day of October, 1919.

Claimant names as witnesses:  
George W. Fenter, Mrs. Bertha Fenter, John Igo, John Thomas, all of Turner, Arizona.

J. L. IRVIN,  
Register.  
First pub. August 31, 1919.

**Cataract Deafness Cannot Be Cured**  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrh of the ears, and that is by a constitutional remedy. Catarrh of the ears is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. If you have catarrh of the ears, cure acts thru the blood on the mucous surface of the system.  
We will give One Hundred Dollars for any case of Catarrh of the ears that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists.  
J. J. CHENEY & CO., Toledo, O.
